## Civitans

By Don Spencer

I have been an active member of the Breakfast Civitan for six months. I have worked at concessions for the rodeo and the fair. I enjoy this because I get to meet many people. As

a worker, I have learned how to serve drinks and make French fries. I attend Board meetings and Club meetings on a regular basis. I enjoy these meetings because I am allowed to voice my opinion and can take an active part in these meetings. They are quite informative. I also have participated in several community projects. By doing these things, it helps me fulfill the Civitan Creed.

I highly recommend to anyone who'd like, to join in and participate in a civic minded organization like Breakfast Civitan.
